CORE SERVICES

Multidisciplinary Services for Public and Private-Sector Projects

Mmolawa Resources provides a broad range of services designed to support infrastructure projects, mining operations, energy supply chains, construction environments, municipalities, and industrial clients.

CIVIL & INFRASTRUCTURE WORKS

Practical support for roadworks, drainage, building maintenance, paving, earthworks, rehabilitation, and general infrastructure projects for public and private-sector clients.

ELECTRICAL INFRASTRUCTURE SERVICES

Electrical installation, maintenance, substation support, street lighting, high-mast lighting, and industrial electrical works for commercial, municipal, and energy-sector environments.

Mining Support Services

Mining support for opencast operations, overburden removal, rehabilitation, plant hire coordination, equipment support, and general mining operational requirements.

Coal Hauling & Bulk Logistics

Reliable coal hauling, bulk material transport, fleet coordination, route planning, and logistics support for mining, construction, energy, and industrial supply chains.

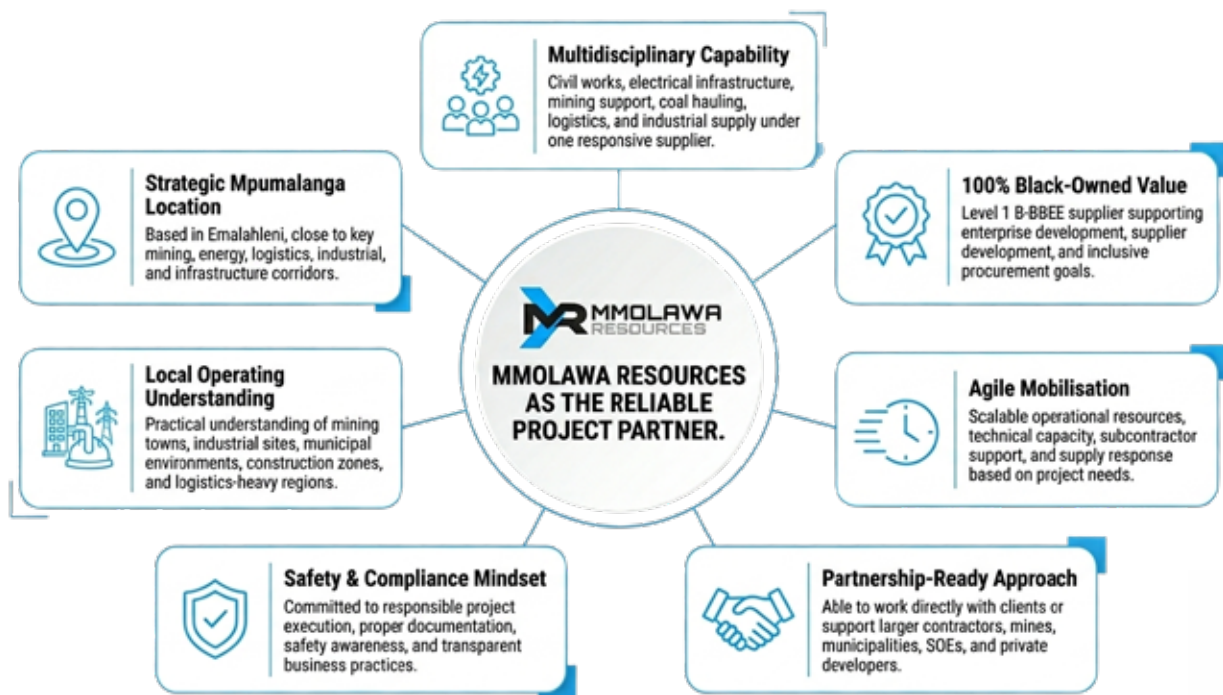

Industrial Supply & Delivery

Responsive sourcing and delivery of PPE, construction materials, electrical parts, mechanical parts, consumables, industrial supplies, and project-related procurement support

WHY CHOOSE MMOLAWA

A Partner For Delivery-Driven Environments

Procurement teams, project managers, municipalities, mining houses, and construction firms need suppliers who can respond quickly, operate responsibly, and provide dependable service across different project requirements. Mmolawa Resources is built around that need.

COMPLIANCE & GOVERNANCE

Properly Registered, Procurement-Ready and Committed to Responsible Business

Mmolawa Resources is a registered South African private company with the documentation required to support supplier registration, tender participation, procurement onboarding, and project engagement.

Governance Commitment

Mmolawa Resources is committed to ethical conduct, clear documentation, transparent communication, and responsible business operations. The company understands that procurement teams and project owners require suppliers who can provide accurate company records, compliance documentation, and professional conduct throughout the supplier lifecycle

Safety, Quality and Environmental Commitment

Mmolawa Resources recognises the importance of health, safety, quality, and environmental responsibility across its service areas. The company is committed to:

- Safe working practices
- Responsible site conduct
- Quality-focused service delivery
- Environmental awareness
- Proper supervision and reporting
- Compliance with client-specific site requirements
- Continuous improvement in operational systems

Accreditations and Development Path

Where applicable, Mmolawa Resources is working toward strengthening its industry accreditations and registrations, including:

- COID compliance
- CIDB registration and grading
- NHBRC certification, where applicable
- Additional safety, quality, and sector-specific registrations aligned to project requirements

LEADERSHIP & CAPACITY

Young, Serious and Built for Scalable Delivery

Mmolawa Resources is led by Thabang Mmolawa, who provides strategic direction, client relationship oversight, and operational leadership for the company.

The company is being developed as a serious growth-stage business with the ability to support infrastructure, mining, logistics, energy, construction, and industrial supply opportunities. Its approach is to combine internal leadership with scalable project-based teams, specialist support, supplier relationships, and subcontracting capacity where required.

LEADERSHIP

Director: Thabang Mmolawa

Under his leadership, Mmolawa Resources is focused on building a reputable, compliant, and opportunity-ready company that can serve both government and private-sector clients.

OPERATIONAL CAPACITY

Depending on project requirements, Mmolawa Resources can coordinate and work with relevant operational personnel and technical specialists, including:

- Civil engineers
- Electricians
- Site managers
- Safety officers
- Plant operators
- Drivers
- Logistics coordinators
- Administrative support staff
- Procurement and supply support teams
- Specialist subcontractors

COMMITMENT TO LOCAL EMPLOYMENT & SKILLS DEVELOPMENT

Mmolawa Resources is committed to contributing to local economic participation through employment creation, skills development, and supplier development where project opportunities allow.

The company aims to support local communities by developing practical skills, creating work opportunities, and participating in projects that contribute to infrastructure, energy, mining, and municipal development.
